CARGO CAPABILITIES

The Jacksonville Port Authority (JAXPORT) is a full-service international trade seaport in Jacksonville, Florida. The port owns, maintains and markets three cargo terminals, two intermodal rail yards, and a passenger cruise terminal along the St. Johns River. JAXPORT offers service from dozens of ocean carriers connecting Jacksonville to 140 ports in more than 70 countries.

JAXPORT is Florida's No. 1 container port by volume and one of the nation's top vehicle-handling ports. Jacksonville offers fast and efficient vessel operations with a 47-foot deepwater shipping channel, two-way ship traffic, and same-day access to 98 million U.S. consumers.

A MESSAGE FROM JAXPORT

Strategic investments to modernize our port and build on our industry-leading efficiencies – that's the motivation for the decisions we make every day to grow JAXPORT's capabilities to benefit your business in the long term.

Right now, we have projects underway or on the horizon to build our capabilities across all of our major cargo types – containers, autos, and breakbulk.

Anchored by a 47-foot harbor, JAXPORT is poised for growth as Florida's largest container port, offering one of the deepest shipping channels in the South Atlantic. More information on port growth projects is available on page 24.

We're also leaning into our diversification of business, with investments to enhance our auto and breakbulk capabilities. We remain committed to growing the Puerto Rico and Caribbean trade lanes while continuing to facilitate trade opportunities across other major global markets.

Inside this Directory, you will find helpful information about our terminals, capabilities, and service providers who can offer solutions to meet the needs of your business. The book's size makes it convenient for use on the go, with a digital version ideal for mobile use.

Thank you for the opportunity to serve your business.

MAJOR GROWTH PROJECTS

JAXPORT is committed to the ongoing enhancement of port infrastructure and facilities. Anchored by harbor deepening to 47 feet (14.32 meters), more than half a billion dollars has been invested in JAXPORT since 2018, with an additional nearly half a billion dollars planned over the next five years.

CONTAINERS

The SSA Jacksonville Container Terminal (SSA JCT) at the Blount Island Marine Terminal features a 47-foot deepwater shipping channel and six 100-foot gauge electric container cranes, including three 100-foot gauge electric cranes that enter into service in early 2024.

A $72 million project to expand and modernize the SSA JCT is more than halfway complete. In 2025, the facility will feature 97 acres of newly paved asphalt to accommodate taller stacks of loaded containers, with the capability to further expand the terminal to 120 acres as needed. Once complete, the facility will be able to accommodate nearly 500,000 TEUs annually, a 150% increase over its current throughput.

Additionally, six new outbound truck lanes are scheduled to open in February 2024, with improvements to the terminal's six inbound lanes scheduled for completion in late 2024. SSA is also adding new eco-friendly cargo-handling equipment (see Sustainability section on page 26).

Adjacent to the terminal, design is underway to raise overhead powerlines to increase the operational height of the terminal to 205 feet by the end of 2025.

VEHICLES

Southeast Toyota Distributors (SET) is making progress on the construction of a new 250,000-square-foot auto processing facility at Blount Island. Planned for completion in 2025, the

$120 million project modernizes the company's operations, incorporating additional on-site rail connections and truck loading areas.

Further enhancing the terminal's Ro/Ro capabilities, JAXPORT, in partnership with FDOT, is completing $45 million in berth upgrades at Blount Island to serve Ro/Ro vessels. One auto berth (Berth 20) is being expanded to accommodate two larger vehicle ships simultaneously instead of one. Another berth (Berth 22) is being improved to more efficiently accommodate larger vehicle ships calling the terminal.

BREAKBULK

JAXPORT is exploring areas for breakbulk expansion, including a 79-acre footprint at the port's Talleyrand Marine Terminal. Additional warehouse storage space at Dames Point will support trans-load operations and future volume growth in non-containerized cargo.

SUSTAINABILITY

JAXPORT and two of its port tenants, SSA Jacksonville and Crowley, recently launched JAXPORT Express, a $47 million sustainability initiative at the port's Blount Island and Talleyrand marine terminals.

The project, funded in part by a federal grant, will achieve greenhouse gas reductions, expand energy-efficient terminal infrastructure, increase JAXPORT's cargo throughput, and develop a plan to transition to lower-emission port infrastructure and maritime operations.

Through EXPRESS, $31.2 million will be spent purchasing new eco-friendly cargo handling equipment for the SSA JCT at Blount Island, including several hybrid-electric rubber-tired gantry (RTG) cranes, as well as nearly a dozen units of low- and zero-emission container top picks, forklifts, and related charging infrastructure.

Additionally, $14.6 million will be spent at Crowley's JAXPORT Talleyrand Terminal for the addition of nearly two dozen pieces of zero-emissions equipment for cargo handling, including specialty yard tractors and forklifts, as well as related charging stations for Crowley's supply chain services. Crowley is expanding the reefer plug count and transitioning to a stacked reefer system that will improve the efficiency of moving refrigerated cargoes through JAXPORT by increasing cargo throughput and reducing diesel and energy demand. These investments enable the port to expand its position as one of the United States' top seaports for exporting refrigerated cargo.

TALLEYRAND MARINE TERMINAL

2085 TALLEYRAND AVE.
JACKSONVILLE, FL 32206

Port tenants at JAXPORT's Talleyrand Marine Terminal (TMT) move a variety of cargoes, including containerized freight, autos, breakbulk and liquid bulk products.

Located 20.9 nautical miles (38.9 km) from the sea buoy with 4,780 linear feet (1,457 m) of berthing space, the terminal features three post-Panamax container cranes, three Panamax cranes, more than 700,000 square feet of warehousing space, and an on-dock intermodal container transfer facility with direct switching to CSX and Norfolk Southern as well as proximity to Florida East Coast Railroad's intermodal ramp.

Jacksonville Port Terminal Railroad, part of Watco Companies, operates on-dock rail at TMT and the connecting 10-mile short line, which is ideal for handling intermodal containers, automobiles, chemicals, farm and food products, and pulp and paper to and from the port.

ICTF AT DAMES POINT

9600 NEW BERLIN ROAD
JACKSONVILLE, FL 32226

JAXPORT's Intermodal Container Transfer Facility (ICTF) at Dames Point offers convenient transfer of containers between ships, trucks and rail, with switching provided by CSX.

The ICTF entrance is located 0.3 miles from the exit gate of the Dames Point container terminal, and 3.2 miles from the Blount Island Marine Terminal main gate.

Rail that connects to CSX's main line allows for two unit trains each day (one inbound and one outbound) carrying up to 200 containers each. Two truck lanes allow vehicles to transport containers to and from the adjacent shipping terminals.

SERVICE HIGHLIGHTS

- 15,400 LINEAR FEET OF TRACK
- SERVICE FROM: ATLANTA, CHICAGO, DETROIT
- SERVICE TO: ATLANTA, CHICAGO

FOR MORE INFORMATION ON USING THE ICTF, CONTACT YOUR CSXT INTERMODAL INTERNATIONAL CONTAINER ACCOUNT MANAGER.

Excellence on every level.

CRUISE TERMINAL

9810 AUGUST DRIVE
JACKSONVILLE, FL 32226

Located at the Dames Point Marine Terminal, the JAXPORT Cruise Terminal offers service to The Bahamas from Carnival Cruise Line aboard the 2,190-passenger Carnival Elation.

With 98 million people living within a day's drive of Jacksonville, JAXPORT offers convenient cruise access for passengers throughout the Southeast U.S.

A study of Northeast Florida's tourism found that 60 percent of travelers cruising through JAXPORT cited "easy access to the port" as the primary reason for choosing Jacksonville.

Visit JAXPORT.com/cruise for additional information about cruising from JAXPORT.

Our strategy is simple

MainOcean

Port Proximity. Technology. People.

As a regional 3PL/logistics provider, we have developed a broad range of services that have allowed us to work with our partners to deliver what matters the most – Quality Services Delivered on Time with Care. We provide the missing links in the supply chain that ensure the hard work our customers do gets to their customers as they intended.

In addition to our Charleston and Savannah facilities offering more than 1,000,000 sq. ft. of warehouse space, our Jacksonville services include:
- Warehousing; short and long term
- Cross docking
- Fulfillment and Distribution
- Rejected Loads/Rework
- Offsite operational support
- Bonded & EPA Support
- EDI, RF Scanning
- 24hr Customer Access w/KPI tracking
