FOREIGN TRADE ZONE (FTZ) NO. 64
Foreign-Trade Zones (FTZ) are secure areas under U.S. Customs and Border Protection (CBP) supervision that are generally considered outside CBP territory upon activation. Located in or near CBP ports of entry, they are the United States' version of what are known internationally as free-trade zones.
Foreign and domestic merchandise may be moved into zones for operations, not otherwise prohibited by law, including storage, exhibition, assembly, manufacturing, and processing. Under zone procedures, the usual formal CBP entry procedures and payments of duties are not required on the foreign merchandise unless and until it enters CBP territory for domestic consumption, at which point the importer generally has the choice of paying duties at the rate of either the original foreign materials or the finished product. Qualified public or private corporations that may operate the facilities themselves or contract for the operation sponsors foreign-trade zones.

Jacksonville Port Authority
Terminal Tariff No. 2023_A
(Cancels Terminal Tariff No. 2023)

(DEF)	<p>31-470</p> <p><u>WHARFAGE</u></p> <p>A charge for the use of the wharves in the receiving and delivering of cargo to ships, barges, or other watercraft while lying alongside the wharf properties of JAXPORT, including cargo received and/or delivered to barges, lighters, or other watercraft lying alongside of such vessels, or taken from and/or delivered to the water. One wharfage charge is assessed against the vessel for each movement of cargo. All cargo received on or off the terminal is due wharfage. Wharfage will be collected on the cargo whether or not it is loaded aboard a vessel. Wharfage will be assessed against the vessel's agent, unless otherwise agreed in advance by JAXPORT. JAXPORT reserves the right to determine billing classification of all cargo. For wharfage charges by cargo type, see rule 31-455.</p> <p>Note: Transshipped cargo will be assessed wharfage on both the inbound vessel, as well as the outbound vessel</p>
(REG)	<p>31-475</p> <p><u>WORK TO COMPLETION REQUIREMENT</u></p> <p>Any vessel which is accepted for berthing at JAXPORT facilities may be required to work continuously to <u>earliest possible completion</u> when the berth assigned to the vessel is declared to be congested by the Chief Operating Officer. Any additional incurred charges as a result of this rule will be for the vessel's account. Any vessel in berth which refuses to work continuously to completion shall be ordered to immediately vacate the berth (see rule 31-435) by the Chief Operating Officer or his/her appointed designee. If a vessel loses its right to a berth by refusing to work continuously to completion, such vessel will forfeit its turn at the berth assigned and go to the bottom of the list of vessels that are assigned to the berth or terminal. Failure to vacate berth in accordance with this rule will subject vessel to penalty charges (see rule 31-435).</p>
